#### The American Plan

It would be well if Europe's rulers would sit down by their water coolers and smoke their pipes and read romances, instead of reaching out for chances to slay all foes they get their glims on, and paint the blooming landadvancing men, withdrawing, mating—for that's one kind of watchful waiting. Oh, all things come to men and kinglets who do not rave and tear their ringlets. But lemons come, and prunes and quinces, to common, garden men — or princes—who of their honor are so jealous that if we look at them they tell us that they're in
mating—for that's one kind of watchful waiting. As yesterday's sun began to climb through the morning mists and labor mether darkness spelling. English grammar, geography, undertaking printers, high school artition consucted by the plicants will also be required to undergo a physical examination conducted by the board of police and fire surgeons.

The law limits appointments to actual residents of the District of Columbia, the will not do for the Department of Agriculture to call this rumor a nature face.

The army worms are mobilizing today. It will not do for the Department of Agriculture to call this rumor a nature face, and plane geometry. Applicants will also be required to undergo a physical examination conducted by the board of police and fire surgeons.

The bureau of entomology may declare with tears in its eyes that army worms ter. If some one says, "Your face ligerents might say; they may aver that offends me," if, arrogant, a note army worms have all passed away to

Marching on Washington.

Army worms are mobolizing again. They are gathering out on the Rockville road, presumably for an invasion of the city. A commuter spy from Bethesda saw them marching in close formation early this morning, and just managed o escape with his life from the oncom

ing hordes.

The worms since their depredations of last month have adopted new tactics, according to the reports of the spy. Seeing them coming down the road, he crept into the bushes to observe their movements. Soon they came on—great bodies of infantry marching in single file. Like so many great, long worms the separate masses of leucania punctata rolled down the Reckville road on their way to Washthe Rockville road on their way to Wash

ter of speculation. He may have to remain abroad, disbursing relief to Americans, until the end of the year, although he went in the anticipation of returning in less than a month's time. "We had a very pleasant trip across the ocean," he writes, "only two or three

days bad weather. I managed to ge

through in good shape without any ap-

pearance of seasickness. We reached Falmouth, England, Sunday, August 16, and proceeded immediately by rail to London.

"We made the trip Sunday night and turned up in London bright and early Monday morning. We saw a great many places of interest in London during our

two-day stay.
"Was joined at the American embassy by Mr. Dowd, who is now with me. He reached London slightly in advance of us. Did not have time to take in many of the historic places of interest in London

to Falmouth by daylight, and it was cer- of the Economy

As a seen't written me on the second man gulped. The mark in which the noun "doughhead was predominant. Several-people started to laugh.

The first debater was sympathetic, "Ain't you heard there was a war yet, kid?" he asked.

He dropped into a quiet little place and placed his foot on the rail. There was a reminiscent smile on the face of the chemist in the white coat. The Irish chemist was patting a bungstarter affectionately.

"You oughter come in earlier," said the defractionately.

"You oughter come in earlier," said the outing was declared to have been the most enjoyable yet taken by the was patured the the most in the white was patured the chemist. If just threw a couple of guys out of here. They said the derivance the chemist was patured to have been the most enjoyable yet taken by the was chaustin' the Germans. An' they says, yes haustin' the death tryin' to catch up with the allies and them—

"The party left Georgetown at 9 o'clock in the morning and reached Bluemont about noon. The trip was one of the longest yet made, as well as one of the longest yet made and orderly.

The party left ferminat news, so that we are probably receiving as much war news here in England as you are in the states. "It is impossible at this time to state

# when we will return. That depends on the conditions as we find them in these various places that we visit. There is no distress with American citizens in London, and the situation there is well in hand. Just how we will find it in Holland I do not know. It looks like we might go either north, to Norway and Sweden, or south, to the Mediterranean. That will depend entirely upon circumstances and orders that we receive from home."
